

## Colorado Statewide Digital Trunked Radio System Private Radio User Agreement

I \_\_\_\_\_,  
as the owner of a private radio wishing to operate it on the Colorado Statewide Digital Trunked Radio System confirm that I am an active staff member of (Insert Agency Name) \_\_\_\_\_, an active CCNC User Agency.

I have a signed letter (attached) from the above listed CCNC User Agency stating that the CCNC User Agency assumes full responsibility for my operation of the radio.  
I agree to have CCNC deprogram the radio should my position with the above agency terminate.

I have read and agree to the "COLORADO STATEWIDE DIGITAL TRUNKED RADIO (DTR) SYSTEM PARTICIPANT AGREEMENT."

I shall only operate the radio in accordance with FCC regulations, CCNC and my User Agency's SOPs as well as the "COLORADO STATEWIDE DIGITAL TRUNKED RADIO (DTR) SYSTEM PARTICIPANT AGREEMENT".

I agree to allow the radio to be programmed with a secure System Key and to be "Write Protected." I acknowledge that the use of a secure System Key could cause the radio to always require a secure System Key for further programming and that I am responsible for any costs associated with removing this programming restriction.

I will be responsible for any upgrades required to keep up to date with the operating firmware/software version of the Colorado Statewide Digital Trunked Radio System.

I acknowledge that CCNC has the right to inhibit the radio should it be in the best interest of CCNC, the Colorado Statewide Digital Trunked Radio System, or its members. Furthermore, should CCNC inhibit the radio, CCNC will be responsible for deprogramming, uninhibiting, and removing the radio from the System Database.
